Sathya Enterprises — Website Content

Oct 14, 2026 · @saahaas

How to use this doc

Every section maps to an existing page and section on the live build, in the order they appear. Existing headlines are kept where they already work; new copy fills the thin spots — mainly the service detail blocks, which today are one line each and repeated.

- **Voice:** short, confident, systems-minded. One idea per sentence. No buzzword stacks.
- **Recurring line:** "One Enterprise. Multiple Businesses. One Connected Ecosystem."
- **Tagline:** BUILD. MARKET. LEAD. GROW.
- **Every service block uses the same shape:** eyebrow, title, one-line hook, overview paragraph, what's included (4–6 points), who it's for, how it works (3–4 steps), CTA.
- **Placeholders** are marked [LIKE THIS] — phone, WhatsApp, address, numbers you can verify.

Home page

Hero

- **Eyebrow:** BUILD. MARKET. LEAD. GROW.
- **H1:** Sathya Enterprises
- **Sub-line (new, under H1):** One enterprise. Multiple businesses. One connected ecosystem — from Bengaluru, for businesses ready to grow.
- **Primary CTA:** Start a Conversation
- **Secondary CTA:** Explore the Ecosystem

Story scroll (four panels — keep existing headlines)

1. **More than a Business.** One enterprise, many businesses, one connected ecosystem. We don't sell isolated services — we build the parts of a business that work better together.
2. **A Growing Ecosystem.** Digital growth, technology, data, products, infrastructure and business services — four divisions under one roof, one team and one standard.

3. **Built as One.** Every part feeds the next. Digital creates attention. Technology turns that attention into systems. Products and services deliver the real-world value customers came for.
4. **Made to Grow.** New businesses, new products, new technology and new partnerships — each one connected back to the same ecosystem, so every client gains from what we build next.

Explore our ecosystem

- **Eyebrow:** The Ecosystem
- **H2:** Explore our ecosystem.
- **Sub:** Four divisions, twenty capabilities, one connected ecosystem. Pick where you need help — or let us map the full system for you.
- **Filter tabs:** All · Digital · Technology · Products · Services
- **Cards:** use the title + one-line hook + CTA from each division section below.

Division strip (new — optional, above the cards)

#	Division	Role in the system	One-liner
01	Digital	Creates attention	Marketing, brand, websites, SEO, SEM, social and lead generation.
02	Technology	Builds the systems	SaaS, AI automation, WhatsApp Business and data solutions.
03	Products	Packages the value	Digital data products and a three-sided business marketplace.
04	Services	Delivers on the ground	Water pumps, borewells, CCTV, travel, interiors and startup consulting.

Money-making system

- **Eyebrow:** The System
- **H2:** Money-making system.
- **Sub:** From attention to leads. From leads to customers. From customers to growth.

1. **Attract.** Digital marketing, Instagram, SEO and SEM put your business in front of the right people.

2. **Capture.** Websites, landing pages and lead generation turn visitors into enquiries.
3. **Convert.** CRM, WhatsApp and structured follow-up turn enquiries into customers.
4. **Automate.** SaaS, AI and automation take repeat work off your team's plate.
5. **Understand.** Data and analytics show what's working and what to fix next.
6. **Grow.** More customers, more revenue, more room to scale.

Why Sathya (new section — recommended)

- **H2:** Why one partner beats five vendors.
- **One team, one brief.** No re-explaining your business to a new agency every quarter.
- **Connected by default.** Your website, ads, WhatsApp and CRM are built to talk to each other.
- **Measured end to end.** Every rupee is tracked from first click to closed sale.
- **Online and on the ground.** From Google Ads to borewell installs — the same standard of craft.

Numbers band (new — fill with real figures only)

- [XX]+ businesses served · [XX]+ projects delivered · 4 divisions · 20 capabilities · Bengaluru-based

Open invitation

- **Eyebrow:** An open invitation
- **H2:** Let's grow, together.
- **Body:** One partner to build, market, lead and grow. Tell us where you are — we'll show you the next step.
- **Marquee:** LET'S GROW · SE

Final CTA

- **Eyebrow:** What's Next
- **H2:** Let's build what's next.
- **Body:** Whether you need more leads this month or a full growth system this year, it starts with one conversation.
- **CTAs:** Start a Conversation · Explore Ecosystem
- **Email:** hello@sathyaenterprises.com

About page

Hero

- **H1:** About — More than a business
- **Sub:** The story behind one enterprise, multiple businesses, and one connected ecosystem.

Who We Are

Sathya Enterprises is a Bengaluru-based business ecosystem spanning digital, technology, products and services. We were built as one enterprise — not a loose collection of ventures — so the work we do in one division makes every other division stronger.

A client who comes to us for a website can leave with a lead pipeline, a WhatsApp sales channel and a dashboard that shows what's working. A homeowner who calls about a borewell gets the same accountability as a company launching a campaign.

Our Vision

To be the connected engine behind ambitious, modern Indian businesses — one platform for growth across every channel that matters.

Our Mission

Build the systems, tools and services that let businesses attract attention, capture leads, convert customers and grow — with less manual effort and more clarity at every step.

Our Values

Reliability, transparency and craftsmanship — every division held to the same standard, whether it's a website or a borewell installation.

- **Reliability.** We do what we said, when we said. Timelines and scope are written down before work starts.
- **Transparency.** Clear pricing, honest reporting, and straight answers when something isn't working.
- **Craftsmanship.** Pixel or pipe, the finish matters. We build things to last, not just to launch.
- **Connection.** Every service is designed to plug into the next one.

- **Ownership.** One team owns the outcome — no passing the blame between vendors.

How we work (new section — recommended)

1. **Listen.** We start with where your business is today and where it needs to be.
2. **Map.** We design the system — which channels, tools and services move you forward.
3. **Build.** Our teams execute, online and on the ground.
4. **Measure.** You see what's working through clear reports and dashboards.
5. **Grow.** We refine, expand and connect new capabilities as you scale.

Leadership / team (optional — needs client input)

- [Founder name], Founder — [one line on background and why Sathya Enterprises exists]
- [Name], [Role] — [one line]

Ecosystem block

Reuse the home page "Explore our ecosystem" cards.

Closing CTA

- **H2:** Work with one team that sees the whole picture.
- **CTA:** Start a Conversation

Digital page

Hero + intro

- **H1:** Digital — Creates attention
- **Eyebrow:** 01 · Digital
- **H2:** Every channel that creates attention.
- **Intro:** Marketing, brand, websites, SEO, SEM, social media and lead generation — run as one growth system, not eight separate vendors. Everything is planned together, tracked together and reported in one place.

Digital Marketing

- **Hook:** A connected digital growth system, not a bundle of disconnected campaigns.

- **Overview:** We plan, run and report your marketing as one system. Strategy sets the direction, every channel pulls the same way, and you get one monthly report that shows what each rupee did.
- **What's included:** Growth strategy and channel plan · Campaign planning and execution · Creative and copy · Search and social coordination · Monthly performance reporting
- **Who it's for:** Businesses spending on marketing without a clear picture of what's working.
- **How it works:** Audit → Strategy → Launch → Monthly review and optimisation
- **CTA:** Build My Growth System

Logo Design

- **Hook:** The smallest unit of a brand system built to last.
- **Overview:** A logo has to work on a signboard, an Instagram avatar, a vehicle wrap and an invoice. We design identity systems that hold up everywhere — not just a mark that looks good once.
- **What's included:** Logo concepts and refinement · Colour palette and typography · Logo variations (horizontal, stacked, icon) · Brand guidelines sheet · Business card, letterhead and social kit
- **Who it's for:** New businesses, and established ones whose brand has outgrown its look.
- **How it works:** Brand discovery → Concepts → Refinement → Final files and guidelines
- **CTA:** Start My Brand Identity

Web Development

- **Hook:** Websites engineered to convert, not just to look good.
- **Overview:** Fast, mobile-first websites built around how your customers actually buy. Every page has a job, every form is tracked, and the site is maintained after launch.
- **What's included:** Corporate websites · Landing pages · E-commerce stores · Web applications · Hosting, maintenance and updates · SEO-ready build
- **Who it's for:** Businesses whose website looks fine but doesn't bring in enquiries.
- **How it works:** Discovery → Sitemap and design → Build → Launch → Ongoing care
- **CTA:** Start My Website

SEO

- **Hook:** Search visibility built on fundamentals.
- **Overview:** We fix what search engines see, write what customers search for, and measure progress every month. No shortcuts, no ranking promises — just compounding visibility.
- **What's included:** Technical SEO audit and fixes · On-page optimisation · Local SEO and Google Business Profile · Content planning and writing · Monthly ranking and traffic reports
- **Who it's for:** Businesses that want customers to find them on Google without paying for every click.
- **How it works:** Audit → Fix → Content → Track and improve
- **CTA:** Improve My Rankings

SEM

- **Hook:** Every rupee of ad spend tracked back to a result.
- **Overview:** Google Ads campaigns built around leads and sales, not impressions. Each campaign is tied to conversion tracking, so you know exactly what you're paying for.
- **What's included:** Google Search campaigns · Display campaigns · Remarketing · Keyword and audience research · Conversion tracking setup · Weekly optimisation
- **Who it's for:** Businesses that need enquiries now, with spend they can see and control.
- **How it works:** Research → Campaign build → Launch → Optimise weekly
- **CTA:** Launch My Campaign

Social Media Management

- **Hook:** Consistent, on-brand presence across platforms.
- **Overview:** A monthly content calendar, designed creatives, scheduled publishing and active community management — handled by one team so your brand looks and sounds the same everywhere.
- **What's included:** Content planning · Creative design · Publishing and scheduling · Community management · Monthly insights report
- **Who it's for:** Businesses that know social matters but don't have the time to show up every day.
- **How it works:** Brand brief → Monthly calendar → Create and publish → Review
- **CTA:** Grow My Social Presence

Instagram Marketing

- **Hook:** A content engine for Instagram — strategy first, format second, consistency always.
- **Overview:** Instagram rewards brands that post with purpose. We plan the strategy, produce Reels, posts and Stories, and use the numbers to sharpen what works.
- **What's included:** Instagram strategy · Reels production · Posts and carousels · Stories · Profile optimisation · Growth and engagement tracking
- **Who it's for:** Consumer brands, personal brands and local businesses selling through Instagram.
- **How it works:** Profile audit → Content strategy → Production → Publish and refine
- **CTA:** Grow My Instagram

Lead Generation

- **Hook:** Traffic → Leads → Qualification → Follow-up → Conversion.
- **Overview:** One predictable pipeline, not a one-off campaign. We bring in leads, filter out the time-wasters and hand your team enquiries ready to close.
- **What's included:** B2B lead generation · Local lead generation · Campaign-based leads · Lead qualification · CRM and WhatsApp follow-up setup
- **Who it's for:** Sales teams and owners who need a steady flow of qualified enquiries every month.
- **How it works:** Define ideal customer → Attract → Qualify → Hand off and follow up
- **CTA:** Build My Pipeline

Digital growth (numbered list — keep existing)

- **H2:** Digital growth.
- **Sub:** Digital creates attention.
- Keep the eight numbered items with their existing tag lines.

Closing CTA

- **H2:** Ready to be seen by the right people?
- **CTA:** Start a Conversation

Technology page

Hero + intro

- **H1:** Technology — Builds the systems
- **Eyebrow:** 02 · Technology
- **H2:** Systems that turn attention into revenue.
- **Intro:** SaaS, AI automation, WhatsApp Business and data solutions — the technology layer that captures every lead, follows up without fail and shows you the numbers that matter.

SaaS Products

- **Hook:** A modular SaaS ecosystem — start with one module, add more as you grow.
- **Overview:** Business software that fits Indian SMEs. Begin with what you need today — a CRM, bookings or billing — and switch on more modules without changing platforms.
- **What's included:** CRM and lead management · Booking and appointment tools · Billing and invoicing · Inventory and order tracking · Staff and task management · Reports dashboard
- **Who it's for:** Growing businesses still running on spreadsheets, notebooks and WhatsApp groups.
- **How it works:** Demo → Pick modules → Setup and data migration → Training and support
- **CTA:** Request Demo

AI Automation

- **Hook:** What should never require a human to repeat it manually?
- **Overview:** We find the repetitive work in your business — replying to enquiries, sending quotes, updating sheets, chasing payments — and automate it with AI and workflow tools.
- **What's included:** Process audit · AI chatbots and assistants · Workflow automation · Automated follow-ups and reminders · Document and data processing · Integration with your existing tools
- **Who it's for:** Teams losing hours every week to copy-paste work.
- **How it works:** Map the workflow → Design the automation → Build and test → Go live and monitor

- **CTA:** Automate My Business

WhatsApp Business Solutions

- **Hook:** The channel your customers already use, turned into a sales and support system.
- **Overview:** Official WhatsApp Business API setup with catalogues, auto-replies, broadcast campaigns and team inboxes — so no enquiry is missed and every customer gets a fast reply.
- **What's included:** WhatsApp Business API setup · Green tick verification support · Auto-replies and chatbots · Broadcast campaigns · Shared team inbox · CRM integration
- **Who it's for:** Businesses whose customers already message them — and whose replies are slow or scattered.
- **How it works:** Account setup → Flows and templates → Team onboarding → Campaigns and optimisation
- **CTA:** Set Up WhatsApp Business

Data Solutions

- **Hook:** Data that gets looked at.
- **Overview:** We clean, organise and connect the data spread across your sheets, tools and platforms, then surface it in a dashboard people actually open.
- **What's included:** Data cleaning and structuring · Database setup · Custom dashboards · Sales and marketing analytics · Automated reports · Data integration across tools
- **Who it's for:** Owners who make decisions on gut feel because the numbers are too hard to get.
- **How it works:** Data audit → Clean and connect → Dashboard build → Ongoing reporting
- **CTA:** Understand My Data

Technology stack (numbered list)

- **H2:** Built to scale.
- **Sub:** Technology turns attention into systems.

1. **SaaS.** CRM, bookings, billing, inventory
2. **AI Automation.** Chatbots, workflows, follow-ups, document processing
3. **WhatsApp.** Business API, auto-replies, broadcasts, team inbox

4. **Data.** Cleaning, dashboards, analytics, reporting

Closing CTA

- **H2:** Stop doing it by hand.
- **CTA:** Request a Demo

Products page

Hero + intro

- **H1:** Products — Packaged value
- **Eyebrow:** 03 · Products
- **H2:** Products built from what we know.
- **Intro:** Years of work across industries, packaged into products businesses can use straight away — research-backed data and a marketplace that connects customers, businesses and service providers.

Digital Data Products

- **Hook:** Datasets and research, packaged as products.
- **Overview:** Ready-to-use business datasets, market research and industry reports — sourced lawfully, verified, and delivered in formats your team can work with on day one. Privacy-conscious practice sits at the core of every product.
- **What's included:** Industry and business directories · Market research reports · Sector-wise datasets · Custom data research · Regular updates and refreshes
- **Who it's for:** Sales teams, marketers, researchers and founders who need reliable data without months of groundwork.
- **How it works:** Tell us what you need → Sample review → Delivery in Excel/CSV → Updates on request
- **Trust line:** All data is sourced and handled in line with applicable Indian data protection law.
- **CTA:** Explore Data Products

Business Marketplace

- **Hook:** One platform, three sides.

- **Overview:** Customers who need something, businesses who provide it, and the service providers who deliver it — all in one place. Customers find verified providers fast. Businesses get qualified demand. Service partners get steady work.
- **For customers:** Find verified businesses and services · Compare and enquire in one place · Track your requests
- **For businesses:** List your products and services · Receive qualified enquiries · Build your reputation with reviews
- **For service providers:** Get matched with jobs in your area · Manage bookings · Get paid on time
- **How it works:** Post a need → Get matched → Connect and complete → Rate and review
- **CTA:** Explore the Marketplace

Products list (numbered)

- **H2:** Ready to use.
- **Sub:** Products package the value.

1. **Data Products.** Business datasets, market research, industry reports, custom research
2. **Marketplace.** Customers, businesses, service providers, verified listings

Closing CTA

- **H2:** Need data or demand? Start here.
- **CTA:** Start a Conversation

Services page

Hero + intro

- **H1:** Services — Real-world value
- **Eyebrow:** 04 · Services
- **H2:** Services that deliver real-world value.
- **Intro:** Water, security, travel, spaces and startups — the on-the-ground services businesses and homes depend on, delivered by teams that answer the phone and turn up on time.

Water Pumps

- **Hook:** Dependable water infrastructure — supplied, installed and maintained by one team.
- **Overview:** The right pump, sized for your building, installed properly and serviced before it fails. For homes, apartments, farms and commercial sites across Bengaluru.
- **What's included:** Submersible, openwell and booster pumps · Pressure pumps and control panels · Installation and commissioning · Repairs and rewinding · Annual maintenance contracts
- **Who it's for:** Homeowners, apartment associations, farms, builders and commercial properties.
- **How it works:** Site visit → Pump recommendation → Installation → AMC and support
- **CTA:** Enquire About Water Pumps

Borewell Services

- **Hook:** From site assessment to long-term maintenance — handled end to end.
- **Overview:** One team for every stage of your borewell: assessment, drilling, casing, pump fitting, flushing and yield revival. Clear quotes up front, no surprises on depth or cost.
- **What's included:** Groundwater site assessment · Borewell drilling · Casing and pump installation · Borewell flushing and cleaning · Yield revival and recharge · Maintenance and repairs
- **Who it's for:** Homes, layouts, farms and commercial sites needing a reliable water source.
- **How it works:** Site survey → Quote → Drilling and installation → Ongoing maintenance
- **CTA:** Enquire About Borewells

CCTV & Security

- **Hook:** Surveillance designed around how a space is actually used.
- **Overview:** We walk the site, find the blind spots, and design a camera layout that covers what matters. HD cameras, remote viewing on your phone, and maintenance that keeps it all recording.
- **What's included:** Site security survey · HD and IP cameras · DVR/NVR setup and storage · Mobile remote viewing · Video door phones and access control · Maintenance and AMC

- **Who it's for:** Homes, apartments, shops, offices, warehouses and schools.
- **How it works:** Free site survey → Camera plan and quote → Installation → Training and AMC
- **CTA:** Secure My Property

Travels

- **Hook:** Straightforward travel and transportation — enquire, book, go.
- **Overview:** Cars, tempo travellers and buses for airport runs, outstation trips, corporate travel, weddings and tours. Clean vehicles, verified drivers and transparent fares.
- **What's included:** Airport pickup and drop · Outstation and one-way trips · Corporate employee transport · Wedding and event transport · Tour packages · Sedans, SUVs, tempo travellers and buses
- **Who it's for:** Families, corporates, event planners and travel groups.
- **How it works:** Enquire → Get a quote → Confirm booking → Travel
- **CTA:** Enquire About Travel

Interiors & Architecture

- **Hook:** Two disciplines, one project team.
- **Overview:** Architecture and interiors planned together from day one, so structure, space and finish all fit. One team, one timeline, one point of contact from first sketch to handover.
- **What's included:** Architectural design and planning · Interior design · Space planning · 3D visualisation · Modular kitchens and wardrobes · Turnkey execution and project management
- **Who it's for:** Homeowners, offices, retail stores, restaurants and builders.
- **How it works:** Consultation → Concept and 3D design → Execution → Handover
- **CTA:** Start My Project

Startup Management Consulting

- **Hook:** End-to-end startup support — from incorporation to funding.
- **Overview:** We help founders set up the right structure, stay compliant and get investment-ready, so they can spend their time building the business instead of chasing paperwork.

- **What's included:** Company registration (Pvt Ltd, LLP, OPC) · GST, MSME and Startup India registration · Ongoing compliance and filings · Pitch deck and business plan · Funding and investor readiness · Legal advisory and agreements
- **Who it's for:** First-time founders, early-stage startups and small businesses formalising their setup.
- **How it works:** Founder consultation → Setup and registration → Compliance calendar → Growth and funding support
- **CTA:** Start My Startup Journey

In the field (numbered list — keep existing)

- **H2:** In the field.
- **Sub:** Services deliver real-world value.
- Keep the six numbered items; for item 05 change the title to "Interiors & Architecture." and add "Architectural design" to its tags.

Closing CTA

- **H2:** Need it done properly? We'll be there.
- **CTA:** Request a Site Visit

Contact page

Hero

- **H1:** Contact — Let's talk growth
- **Sub:** Tell us where you are. We'll show you the next step — usually within one working day.

- **Email:** hello@sathyaenterprises.com
- **Phone:** [+91 XXXXX XXXXX]
- **WhatsApp:** [+91 XXXXX XXXXX] — "Chat on WhatsApp" button
- **Office:** [Street address], Bengaluru, Karnataka [PIN]
- **Hours:** Monday–Saturday, 9:30 AM – 6:30 PM

Enquiry form

- **Form heading:** Start a conversation
- **Full name** (required)
- **Phone / WhatsApp** (required)
- **Email** (required)
- **Company / business name** (optional)
- **What do you need help with?** (dropdown, grouped): Digital — Digital Marketing, Logo Design, Web Development, SEO, SEM, Social Media Management, Instagram Marketing, Lead Generation · Technology — SaaS Products, AI Automation, WhatsApp Business Solutions, Data Solutions · Products — Digital Data Products, Business Marketplace · Services — Water Pumps, Borewell Services, CCTV & Security, Travels, Interiors & Architecture, Startup Management Consulting · Not sure — help me decide
- **Budget range** (optional): Under ₹25,000 · ₹25,000–₹1 lakh · ₹1–5 lakh · ₹5 lakh+
- **Message:** placeholder — "Tell us a little about your business and what you'd like to achieve."
- **Consent checkbox:** I agree to be contacted by Sathya Enterprises about my enquiry.
- **Submit button:** Send Enquiry
- **Success message:** Thank you — we've received your enquiry. Someone from our team will reach out within one working day.

FAQ (short — below the form)

- **How soon will you respond?** Within one working day, Monday to Saturday.
- **Do you work outside Bengaluru?** Digital, technology and product services are delivered across India. On-ground services cover Bengaluru and nearby areas.
- **Can I combine services?** Yes — that's how we work best. One team can handle your website, ads, WhatsApp and more.
- **Is the first consultation free?** Yes. [Confirm with client.]

SEO meta

Titles stay under 60 characters and descriptions under 160, with "Bengaluru" on every page for local search.

Page	Meta title	Meta description
Home	Sathya Enterprises — Build. Market. Lead. Grow.	Bengaluru business ecosystem for digital marketing, websites, SaaS, AI automation, data products and on-ground services. One partner to grow.
About	About Sathya Enterprises — One Connected Ecosystem	Meet Sathya Enterprises, a Bengaluru business ecosystem built as one enterprise across digital, technology, products and services.
Digital	Digital Marketing, Web & SEO in Bengaluru — Sathya	Digital marketing, logo design, websites, SEO, Google Ads, social media and lead generation in Bengaluru — run as one growth system.

Contact	Contact Sathya Enterprises — Bengaluru	Talk to Sathya Enterprises about marketing, technology, products or on-ground services. We reply within one working day.

Canonical: the meta tags currently point to sathyaenterprises-nine.vercel.app — update `metadataBase` to the final production domain before launch.

Fixes noticed on the live site

- **Duplicate cards:** the Digital and Services pages render every card twice in a row (likely an infinite-carousel duplicate that isn't hidden from crawlers). Add `aria-hidden` to the cloned set so search engines and screen readers see each service once.
- **Repeated images:** cards alternate between the same two photos per division. Give each service its own image.
- **Canonical URL** points to a different Vercel domain than the one being shared (see SEO meta).
- **Contact details:** only an email shows site-wide. Add phone, WhatsApp and address in the footer and Contact page — it matters for the on-ground services.
- **Interiors label:** the Services numbered list says "Interiors." while the card says "Interiors & Architecture" — make them match.
